Steps to Register For Hack Colossus

Step 1 : Choose Your Tracks

Blockchain
Join our hackathon to develop secure and innovative solutions leveraging the full potential of blockchain technology!

Ai & ML
Discover the transformative fusion of software and hardware to develop cutting-edge solutions that fully exploit the capabilities of AI and ML.

IoT
Experience the seamless integration of software and hardware to create innovative solutions harnessing the full potential of IoT.

Robotics
Explore our robotics track to design and build smart solutions that harness the full capabilities of robotics technology!

Open Innovation
In our Open Innovation track, bring your own ideas or problems to solve and collaborate on creative solutions that drive progress and innovation!

Step 2 : Create a PPT for Ideation Round

What is Ideation Round ?
The
Ideation Round involves presenting initial concepts in PowerPoint, covering the problem, solution, feasibility, and impact. Judges assess ideas for innovation, relevance, clarity, and practicality to shortlist promising Ideas. The Shortlisted Team would be Invited to the Hackathon , to Execute their Ideas
